

California Proposition 65 Warning

Notice for California consumers · Effective October 6, 2026

What Proposition 65 is

California's Safe Drinking Water and Toxic Enforcement Act of 1986, commonly known as Proposition 65, requires businesses to give a "clear and reasonable warning" before knowingly and intentionally exposing anyone to chemicals that the State of California has listed as causing cancer, birth defects, or other reproductive harm. The list is maintained by California's Office of Environmental Health Hazard Assessment (OEHHA) and is updated at least annually. Proposition 65 does not prohibit the sale of listed chemicals or of products that contain them; it requires disclosure.

Warnings for our products

Depending on the materials, finishes, and components used, IZZA Cabinetry products may require one or more of the following warnings. The warning that applies to a specific product is provided with the product and in the accompanying literature.

WARNING

This product can expose you to chemicals including wood dust, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

WARNING

This product can expose you to chemicals including formaldehyde, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Dust created by cutting, sanding, or machining wood and wood-based panels can be harmful. Always follow the installation instructions and use appropriate personal protective equipment when working with our products.
